Appointment Hours: Monday – Friday, 8:00 AM – 5:00 PM

Telephone Consultation: Monday – Friday, 2:00 – 4:00 PM

Directions for obtaining specimens for semen analysis:

1. There should be no intercourse for at least three days prior to the appointment.
2. The semen should be obtained manually just prior to the appointment and can be collected at our office. The complete ejaculate should be collected into a sterile container, (available from your doctor or our office), within an hour of the appointment. **Please note:** A jar boiled or washed in the dishwasher is not acceptable.
3. If the specimen is collected at home, try to keep it at room temperature. If the day is very cold, carry the container inside a pocket.
